DETAILED ACTION

1 This action is responsive to the amendment filed on June 5, 2006.

2 Claims 1-56 are allowed.

STATEMENT OF REASONS FOR ALLOWANCE

3 The following is an examiner's statement of reasons for allowance:

The obviousness rejection of the claims over Laurent et al. (US' 431 A1) in view of Ochiai et al. (US' 155) has been rendered moot because the comparative data submitted in the Declaration filed on December 22, 2005 show that the viscosity of the hair dyed with the composition of the claimed invention that comprises Lauric acid is 6600 cp and the viscosity of the composition of the prior art that comprises Oleic acid is 15400 cp, and, thus, the claimed composition provided superior coloration selectivity (2.6) over the dyeing composition of the prior art of record that provided 4.8 of selectivity. Accordingly, the claimed subject matter as a whole would not have been obvious to one having ordinary skill in the art of hair dyeing formulation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
